

Belle River Wind Project

Final Community Liaison Committee Meeting

The Belle River Wind Project (Project) is a 100 megawatt wind facility located in the Town of Lakeshore, Essex County, Ontario. The Project is being developed by SP Belle River Wind LP, by its general partner, SP Belle River Wind GP Inc. (Belle River Wind), which obtained Renewable Energy Approval (REA) from the Ministry of the Environment and Climate Change (MOECC) to build a Class 4 Wind facility in January 2016.

Final Community Liaison Committee Meeting

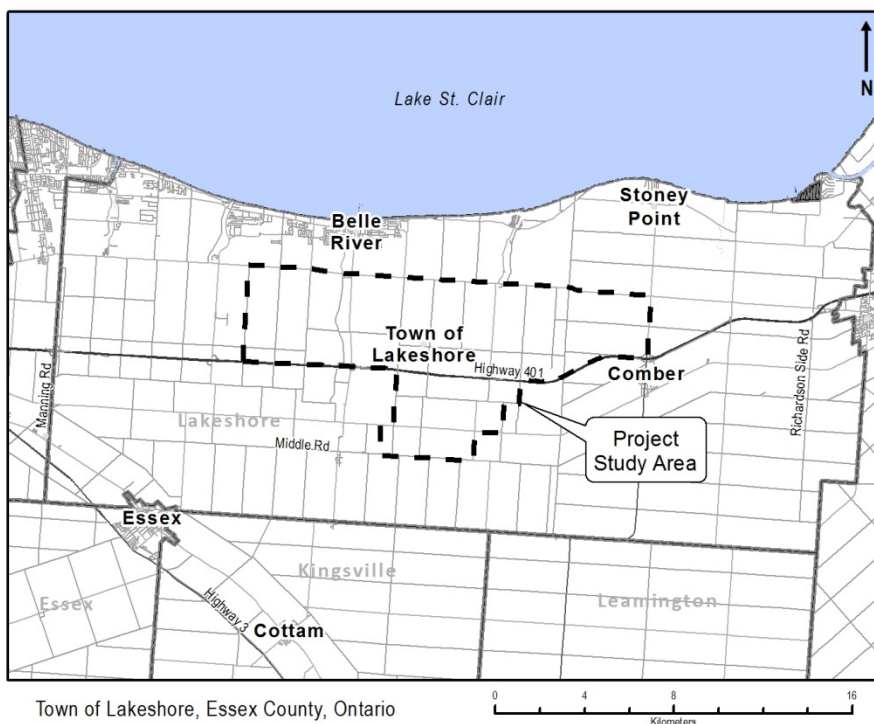

Belle River Wind established a Community Liaison Committee (CLC) to discuss the important aspects of construction, installation, use, operation, maintenance and retirement of the Project. The CLC is not intended to revisit matters already addressed through the REA process. Belle River Wind views the CLC as a valuable opportunity to include the community in the Project.

The fourth and final CLC meeting is planned for November 22nd, 2017. The meeting will be open to the public so that the community can participate by observing and asking questions. Requests for delegations are welcomed and must be made in writing prior to the meeting to the Committee facilitator. All meeting materials (e.g., agendas, minutes) will be available for review online at:

www.belleriverwind.com/clc

Details about the final meeting are provided below:

Date: November 22, 2017
Time: 6:00 p.m. to 8:00 p.m.
Location: **Comber & District Community Centre**
7100 Community Centre Street
Comber, ON N0P 1J0
